

MARKING STRIPS

Delineation of corridors, safety zones, navigation markings

Product description

Marking strips present a solution for anyone looking for a way to define an area or delineate safety zones and corridors or who simply want to add some flair to a space.

The marking strip can be as a narrow or wide tile. The composition of the tiles creates a basic tile (TM Mechanic, TM Ultra, TM XL). Thanks to this, they can be combined with classic tiles according to your own imagination.

If the entire floor area is bordered, the strips can also be supplemented with corners.

Field of application

- Corridors for the safe movement of people in production and industrial buildings.
- Handling paths for the movement of picking and shelving equipment.
- Directional guidance strips to help navigate interior spaces.
- Marking out areas for storing goods or storage material.
- Marking of parking spaces in garages.
- Design element for all interior realizations (production, warehouse, service, fitness centre, garage, exhibition stand, etc.).
